# Preparation to Provisionals: A Predictable Workflow for Esthetic Restorative Dentistry

Brett Stein, DMD, MMSc, FACP
Apa Aesthetic - Miami

| COURSE OUTLINE | NOTES |
| --- | --- |
| **1. Diagnostics**<br>☐ Photography sequence<br>☐ Extraoral examination<br>☐ Intraoral examination<br>☐ Complete diagnostic records | |
| **2. Treatment Planning**<br>☐ Small cases<br>☐ Medium cases<br>☐ Large cases<br>☐ Facially generated planning<br>☐ Patient communication<br>☐ Case acceptance | |
| **3. Digital Design**<br>☐ Smile design<br>☐ Laboratory communication<br>☐ Validate the restorative blueprint | |
| **4. Tooth Preparation**<br>☐ Reduction principles<br>☐ Margin design<br>☐ Material-driven preparations | |
| **5. Provisionalization**<br>☐ Fabrication<br>☐ Refinement<br>☐ Functional validation<br>☐ Esthetic validation | |
| **6. Laboratory Phase**<br>☐ Transfer information<br>☐ Communication checkpoints<br>☐ Avoid remakes | |
| **7. Final Delivery**<br>☐ Try-in protocol<br>☐ Cementation<br>☐ Occlusal refinement<br>☐ Maintenance | |
