

Health and Safety Precautions at Yankee Dental Congress 2022

Your health and safety are our highest priority at Yankee 2022. We are following the guidelines put in place by the City of Boston and the BCEC. Please read through these guidelines before attending.

1. Personal Protective Equipment

Currently the City of Boston mandates the wearing of masks in public places. This requires Yankee to be a mask mandatory event. Masks are required for the BCEC, Hotels, restaurants, and transportation. For guidance on wearing masks please see the U.S Centers for Disease Control and Prevention (CDC) Guide for Masks. Yankee will have additional masks available on site.

2. Vaccination

In accordance with the City of Boston's B Together Initiative, all people over the age of 12 will be required to present a CDC vaccination card, an image of an official immunization card, or an image of an official immunization record to enter the BCEC. Patrons and workers will need to show proof of at least one vaccine shot.

The current forms of acceptable verification are as follows:

- a. Vaccination Cards
- b. Pictures (phone or printed)
- c. Print outs of vaccine card
- d. Designated COVID Apps (i.e. Clear, etc.)
- e. No ID Required as part of verification process

Medical exemptions will be accepted. We are awaiting the specific protocol for this from the MCCA who is working with the City of Boston and are continuing to work with them to get clarity where needed.

Please be sure to have the required proof of vaccination with you when you enter the BCEC. More details will be provided shortly about on-site procedures regarding proof of vaccination during Yankee 2022. Learn more about the City of Boston's official protocols.

Did you know?

- The BCEC has a hospital-grade HVAC system with more than 25 dedicated Twin Air handler units that can move millions of cubic feet of air per hour.
- The BCEC utilizes the highest-rated MERV Factor Filter to ensure clean air.
- The BCEC will regularly clean and sanitize spaces across the show venue using the latest in cleaning technology, including electrostatic sprayers and EPA-certified, hospital-grade disinfectants that disinfect in 60 seconds.

Thank you for following these guidelines and making Yankee 2022 a success. We look forward to seeing you at the BCEC.
